Fund Objective

The AMF Ultra Short Fund seeks to achieve current income with a very low degree of share-price fluctuation.

Fund Strategy

In pursuit of this objective, the Fund primarily invests in fixed and variable rate mortgage- related investments, debt securities issued or guaranteed by the U.S. Government, its agencies or instrumentalities, asset-backed investments, investment grade corporate debt securities, money market and other debt instruments.

The Fund intends to invest to a significant degree in mortgage-related securities.

Under normal market and interest rate conditions, the Fund seeks to maintain a duration similar to that of a 1-Year U.S. Treasury Note, but not to exceed that of a 2-Year U.S. Treasury Note.

[†]Expense ratio data as of Annual Report, dated October 2009.

THIS MATERIAL IS NOT AUTHORIZED FOR DISTRIBUTION UNLESS PRECEDED OR ACCOMPANIED BY A CURRENT PROSPECTUS. The fund is subject generally to credit, extension, government agency, interest rate, issuer, liquidity, management, market and prepayment risks. Read the prospectus carefully before you invest or forward funds. The Fund may not be available to investors in all states, and this does not constitute an offer in those states. Investors should consider the Fund's investment objectives, risks, charges and expenses carefully before investing. The performance data represents past performance and does not guarantee future results. Current performance may be higher or lower than the performance data quoted. The most recent month-end data can be found at www.amffunds.com or by calling (800)527-3713. For the fiscal year ended October 31, 2009, the Advisor and the Distributor voluntarily waived 0.20% and 0.10% of their fees, respectively, so that "Total Fund Operating Expenses" for the Ultra Short Fund were 0.67%. The Advisor and Distributor expect to continue these waivers throughout the year but are not obligated to do so. If these fee waivers were rescinded, performance would be reduced. Investment return and principal value of an investment will fluctuate so that an investor's shares, when redeemed, may be worth more or less than their original cost. Mutual Funds that invest in securities issued by the U.S. Government or its Agencies are not insured by the U.S. Government, the FDIC or any other government agency. The Distribution Yield is also known as the average monthly yield and is found by calculating the mean value of all daily dividend yields for each given month. It represents the sum of the daily dividend yields for each day of a month divided by the number of days in that month. The prospectus contains this and other investment information about the Fund. To receive a prospectus, please contact the Fund's Distributor, Shay Financial Services, Inc., member FINRA and SIPC, at (800)982-1846 or www.amffunds.com.
