Fund Objective

The Fund's primary investment objective is to achieve capital appreciation. The objective of income is secondary.

Fund Strategy

The Fund seeks to achieve these objectives by investing in a diversified portfolio of equity securities consisting primarily of common stocks of U.S.-based companies whose growth, cash flow, earnings, and dividend prospects are promising and whose securities are reasonably priced and have the potential for capital appreciation.

The quality securities in which the Fund invests consist primarily of dividend-paying common stocks of large-capitalization companies, i.e., companies with market capitalizations in excess of \$8 billion.
